

# GFI Archiver vs MailStore

## With GFI Archiver, save email server space and enable easy file retrieval for compliance

Companies and organizations must secure, store and retrieve electronic communications for legal and compliance regulations. GFI Archiver makes this business requirement easy-to-manage and easy-to-use. Take control of your email and other digital communications storage with GFI Archiver. When comparing GFI Archiver and other available solutions like MailStore, we have to be cognisant of the different capabilities that different solutions may have. The following comparison charts address the features on both products:

### General Features and Characteristics

FEATURE	 Archiver	 MAILSTORE
Storage	GFI Archiver supports single-instance storage and keeps only a single copy of an email and its attachments*	MailStore supports single-instance storage and has automatic database management.
File Archiving	✓	✗
Automatic archiving	can automatically archive via its journaling feature	can automatically archive via its journaling feature
Web based console/client	✓	✓
Desktop client	✓	✓
Outlook integration	✓	✓
Advanced email search	✓	✓
Audit	✓	✓
Manual archiving	✓	✗
Business insights reports	✓	✗
IMAP support	✓	✓
Calendar archiving	✓	✗
Role based access	Yes - full	Yes - limited
Legal hold	✓	✓

\* The compression feature is smart; it will only compress an email if it detects that the compressed version is smaller than the uncompressed version. By making more efficient use of storage, you get lower costs, faster backup and faster mail server performance
